OILS FOR GUYS

BEARD TIPS

Beard Growth -

Don't shave it off! Fight the itch of your beard with the help of doTERRA essential oils.

Beard Care -

Keep your beard soft and shiny! Apply beard oil every day. Work the oil through your beard and the underlying skin.

Beard Maintenance -

Be sure to wash your beard with shampoo a few times a week. Follow up with some essential oils after your beard is dry. Trim your beard every few months, shave your neck and around your beard to keep your look fresh.
